## THE COLLECTION

Created in 2019 by founders Mary and Nicole, The Collection by Salvesen Graham is inspired by an eclectic range of influences, from the elegance of Georgian England to the vibrancy of 18th century Indian textiles.

Showcasing timeless design motifs re-imagined with a contemporary twist, The Collection features upholstered furniture and textiles in a range of kaleidoscopic colours and prints, as well as collectable accessories and decorative items.

Created and crafted to add charm and character to any space, the range embodies the playful and quintessentially British style that Salvesen Graham is known for. Designed to work together or on their own with existing pieces, each piece is crafted to become a future classic that will last, and be loved, for years to come.

### The Wovens Collection

Our Woven's collection is designed in house by Mary & Nicole and crafted locally in the UK. The fabrics have a natural composition with the addition of flax as well as a premium handle and weight, ensuring all three wovens ranges in the collection are incredibly usable as both upholstery and drapery.

### The Genevieve

Genevieve is the hero design, encapsulating the Salvesen Graham aesthetic. An organically repeating floral motif inspired by a 19th-century French archival fashion pattern, the scale of which naturally lends itself to larger pieces of upholstery such as headboards, sofas or ottoman.

### The Wovens Collection: Window Treatments

The plains & seaweed fabrics naturally lend themselves to be used as drapery enabling you to add texture without introducing a competing pattern to a scheme. Play with similar tones by combining two different fabrics in a flop-over or cape heading, or create movement with the striae in the plain for a more contemporary feel.

### The Wovens Collection: Upholstery

The wovens collection makes an excellent choice for upholstery due to the weight of the fabric. From a ruffled skirt on a window seat to a headboard that perfectly shows the scale of the Genevieve pattern repeat. The premium handle with the addition of flax ensures there is a softness sometimes not found in heavier upholstery fabrics.

### Floral Border Stripe

Following the success of our Floral Trail and Zig Zag Stripe fabric collections, Mary and Nicole decided to create a fabric design that married the two, and could be used very creatively in many ways. Taking inspiration from an archive textile design originally hand painted in France c1810-1820 for a fashion textile, this design lends itself to be use both vertically and horizontally, or with different sections of the print to be hidden or revealed to create borders, pelmets and soft furnishings and more.

### The Florals

Featuring a complementary palette of pinks, greens and blues, our Floral Fabrics take inspiration from an archive textile design; originally hand painted in France c1810-1820 for a fashion textile. Mary and Nicole wanted to create a floral fabric that was rooted in history but felt contemporary, due to the choice of colour and large scale.
