

ARCOVE

BY ISABELLA WORSLEY

ABOUT ARCOVE

Arcove was founded by interior designer Isabella Worsley, born out of a passion for colour, texture and pattern. The range leans towards the distinctive, understated ideas that Isabella turns to time and time again in her bespoke projects. Reimagined here, those threads connect the past and the present – for tailored, layered rooms, rooted in authenticity.

Arcove is a brand redefining timeless ideas through textiles, wallpapers, and an ever-evolving collection of interior pieces. Drawing reference from the patterns, palettes and motifs that British design is founded on, Arcove makes elegant, fresh creations that nod towards the past.

Bold stripes, textural weaves, Italianate block prints and classic home accessories, in a modern array of rich, referential tones. Every piece in Arcove's collection is designed in London, and made by expert artisans based throughout the UK. Craftsmanship is at the brand's core – telling stories, showcasing skills, and bringing character, quality and historically inspired design to interior spaces.

CRAFTSMANSHIP

Craftsmanship is at the heart of everything we create at Arcove. Guided by a quiet appreciation for timeless design, we seek to preserve traditional artistry while shaping collections designed to last for years to come.

We work with skilled British makers and artisans whose knowledge has been refined over generations, combining traditional techniques with a considered contemporary approach. Every fabric is woven and printed in the United Kingdom with an attention to detail that honours both heritage and longevity.

We believe that true refinement lies in restraint, integrity, and the quiet confidence of something made well. From the richness of the materials to the precision of the finish, each piece reflects a commitment to enduring quality rather than fleeting trends. By producing in small, carefully managed runs, we are able to maintain exceptional standards while preserving the character and individuality of the craft itself.

THE CORE COLLECTION

Inspired by antique textiles and Italianate block-printing, the designs were initially developed for interior projects in a bespoke capacity. Core to our belief, is the idea that designs of the past should not be lost, but instead revived to ensure their relevance today. Our collection of weaves, wallpapers and accessories is available in an array of joyful designs and colourways, all skillfully made in England by our team of talented craftspeople, a community we are grateful to be a part of.

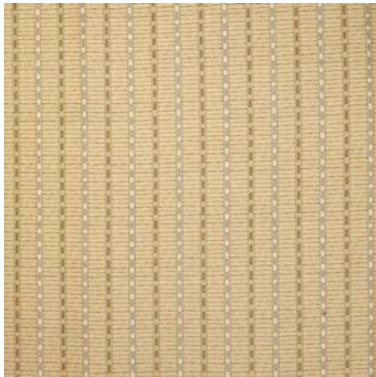

PARIS

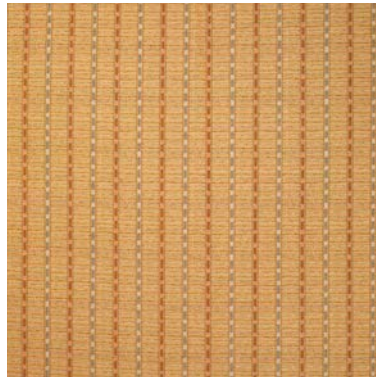

PARIS

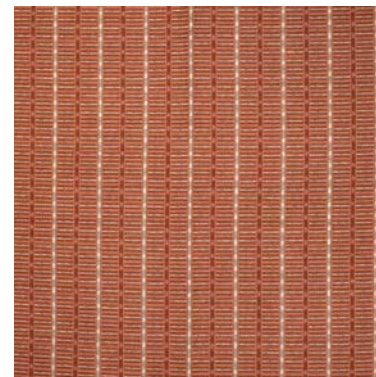

Inspired by a pencil drawing Isabella came across on a Parisian sourcing trip, Paris was the first weave we developed. Transferring this design onto the loom allowed for an intricate mix of tones. We loved creating this subtle stripe, which has remained a firm favourite in our studio.

TEMPLE

TEMPLE

Temple is a fabric that is core to our collection, with a composition that lends itself well to both drapery and upholstery. We wanted to create a plain fabric that references the subtle dye variation found in antique pieces, full of life and character.

TRELLIS

TRELLIS

The geometric nature of this design with its subtle variation lends itself particularly well to upholstery. Given the hard-wearing nature of the weave, we have found it to be particularly striking on sofas and headboards. We hope the jewel-box range of colours will bring warmth and richness to any interior.

ATHENA

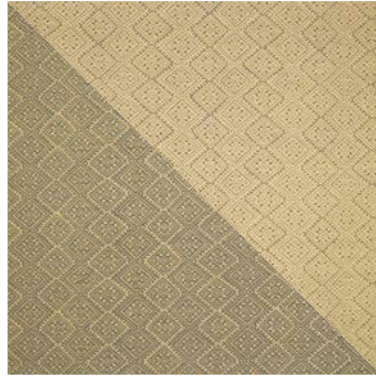

ATHENA

The smaller scale of Athena allows it to sit comfortably amongst any scheme or interior. The colourways chosen reference those of antique fabrics that have stood the test of time. We have developed this design to work on both the front and reverse, to allow for creative and interesting ways for it be used.

ASTRID

ASTRID

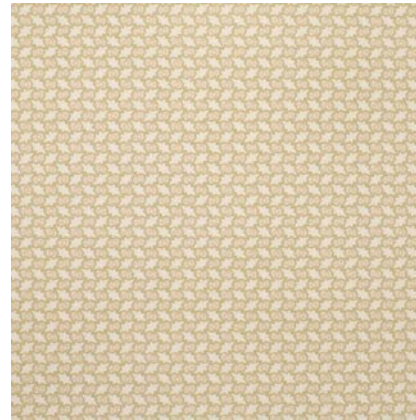

We always felt it would be important to develop a small scale wallpaper within our collection. The tonal colourways of Astrid act as a gentle backdrop to any room; the design has a calming mood when used in larger rooms, with close up detail that catches the eye in smaller spaces.

CADOGAN VINE

CADOGAN VINE

Inspired by block printing techniques, we wanted the design to capture the patina and detail of this tradition. Alongside our talented printers, we worked hard to translate this into a digital format to allow the design to be accessible in any quantity. The drag effect of the striped ground gives depth to this paper, complimenting the movement of the vines.

LAMPSHADES

LAMPSHADES

Our lampshades are made using fabrics from our core collection, as well as selected antique linens and braids that add subtle detail and variation to each piece. They are available in a range of sizes, from 7” butterfly shades for wall lights to larger duplex fittings, making them suitable for different spaces throughout the home. Finished with a warm inner lining, each shade gives off a soft, inviting glow.

THE XIIs

THE ROSEDALE EDITION

Our first XIs collection, The Rosedale Edition, is inspired by long springtime picnics in the blossoming Yorkshire moors, close to where designer Isabella Worsley grew up. Nostalgic and bucolic, the collection is underpinned with the effortless ease of beloved family textiles; new classics, rooted in timeless traditions.
